ITEMS RESOLVED

Passport Summary

WarrantyShift completed the permitted owner-registration or warranty-transfer steps for six items and contacted the manufacturer to verify that two other warranties had already expired. Every listed item has a documented result. The \$20,800 estimated value preserved is based on replacement-value estimates for the transferred or updated items; it is not guaranteed savings or recoverable claim value. Coverage remains subject to each manufacturer's written terms, exclusions, claim procedures, and final eligibility decisions.

STATUS	APPLIANCE	COMPLETION RESULT	CONFIRMATION	COVERAGE / NEXT REVIEW	VALUE PRESERVED

What the Status Means

Confirmed means WarrantyShift received a manufacturer or administrator response, portal confirmation, or other record showing the registration or permitted ownership-transfer step was completed. Expired means the manufacturer or administrator was contacted and confirmed no remaining factory coverage as of the completion date. Neither status expands coverage, revives expired coverage, guarantees a future claim, or replaces the manufacturer's written terms.

How to Use Your Warranty Passport

1. Before requesting service Locate the appliance model, serial number, confirmation ID, proof of purchase or closing, and the written warranty terms.	2. Contact the manufacturer Use the support information in the appliance record. Describe the issue factually and ask for a claim or case number.	3. Preserve the record Save emails, claim numbers, technician findings, invoices, and the manufacturer's final response with this Passport.

Coverage Review Calendar

The review dates below are planning reminders, generally six months before the listed coverage end date. Optional extended coverage can have eligibility windows, exclusions, waiting periods, and costs. Compare written terms and do not assume an offer is affiliated with the original manufacturer.

JUL 2027	Dishwasher	Review repair history and any manufacturer extended-coverage options before the January 2028 parts term ends.
OCT-DEC 2027	Microwave and Range	Review optional coverage and retain recent service documentation.
SEP 2028	Refrigerator	Review sealed-system protection and claim requirements before March 2029.
AUG 2029	Water Heater	Review tank coverage, maintenance records, and replacement planning.
NOV 2033	HVAC Heat Pump	Review compressor coverage and retain licensed-service records.
NOW	Clothes Washer and Dryer	Factory warranties are expired. Retain the manufacturer case records and compare optional repair or protection plans based on written terms and cost.

Documents Delivered with This Passport

Important Information

This Passport is an informational record based on the inspection submission, intake information, records supplied for the transaction, and manufacturer or administrator responses available when prepared. WarrantyShift does not issue, sell, insure, administer, or guarantee a warranty; perform repairs; or decide claim eligibility. The manufacturer or warranty obligor controls coverage, exclusions, transferability, service authorization, and claim decisions. Dates and descriptions should be checked against the complete written warranty. Report a suspected transcription or processing error to WarrantyShift promptly.

Demonstration notice: All people, addresses, companies, products, identifiers, contact details, and warranty outcomes shown here are invented. Example domains and 555 telephone numbers are not customer-support channels.
